The owner of a franchise from the Town for the operation of taxicabs within the Town shall give the Town Council at least 30 days prior notice of intention to operating taxicabs under the franchise.

Determination of Convenience and Necessity –

In determining whether the public convenience and necessity require the franchising of taxicabs, the Town Council shall, among other things, take into consideration the following factors;

6. The experience of applicant in the taxicab business.
7. Any other relative facts as may be deemed necessary and advisable.

Before making any decision with respect to the issuance of a certificate of convenience and necessity, the Council, or a committee thereof, shall make a full and complete investigation of all facts, and may, if it so desires, subpoena witnesses and utilize the service of the Chief of Police or any officer/employee of the Town.

The cost of the publication shall be paid for by the applicant.

Burden of Proof – The burden of proof shall be upon the applicant to establish the existence of public convenience and necessity for the operation of the taxicab specified in his application, and all other facts required for the granting of a certificate.

Failure to Begin Operations – If a certificate is granted to an applicant, and the applicant shall fail, in accordance with the provisions of the certificate, to begin operations within 60 days after the date of the certificate, the certificate shall become null and void.

Transfer of Certificate – A certificate is not transferable without the consent of the Town Council. Applications for a permit to transfer shall be filed in the same manner as an application for a certificate of convenience and necessity. The proceedings upon the application for the transfer shall be the same as those described for the issuance of a certificate, except that the question of public convenience and necessity need not be proved. In the event the franchise has been issued to a corporation, any change in the ownership of the stock shall be approved by the Council.

By way of illustration and not of limitation, such circumstances include vehicles blocking or obstructing entrances or exits to businesses and residences, vehicles parked in such a location or manner as to pose a traffic hazard, and vehicles causing damage to public or private property.

Section 9. Right to probable cause hearing before sale or final disposition of vehicle.

After the removal of an abandoned vehicle, nuisance vehicle or junked motor vehicle, the owner or any other person entitled to possession is entitled to a hearing for the purpose of determining if probable cause existed for removing the vehicle. A request for hearing must be filed in writing with the county magistrate designated by the chief district judge to receive such hearing requests. The magistrate will set the hearing within seventy-two (72) hours of receipt of the request, and the hearing will be conducted in accordance with the provisions of G.S. 20-222, as amended.

Section 10. Redemption of vehicle during proceedings.

At any stage in the proceedings, including before the probable cause hearing, the owner may obtain possession of the removed vehicle by paying the towing fee, including any storage charged, or by posting a bond for double the amount of such fees and charges to the tow truck operator or towing business having custody of the removed vehicle. Upon regaining possession of a vehicle, the owner or person entitled to the possession of the vehicle shall not allow or engage in further violations of this ordinance.

Section 11. Sale and disposition of unclaimed vehicle.

Any abandoned, nuisance or junked motor vehicle which is not claimed by the owner or other party entitled to possession will be disposed of by the tow truck operator or towing business having custody of the vehicle. Disposition of such vehicle shall be carried out in coordination with the Town and in accordance with Article 1 of Chapter 44A of the North Carolina General Statutes.

Section 12. Conditions on removal of vehicles from private property.

As a general policy, the Town will not remove a vehicle from private property if the owner, occupant, or lessee of such property could have the vehicle removed under applicable state law procedures. In no case will a vehicle be removed by the Town from private property without a written request of the owner, occupant, or lessee, except in those cases where a vehicle is a nuisance vehicle or is a junked motor vehicle which has been ordered removed by the Zoning Administrator. The Town may require any person requesting the removal of an

abandoned, nuisance or junked motor vehicle from private property to indemnify the Town against any loss, expense or liability incurred because of the removal of the storage, or sale thereof.

Section 13. Protection against criminal or civil liability.

No person shall be held to answer in any civil or criminal action to any owner or other person legally entitled to the possession of an abandoned, nuisance or junked motor vehicle, for disposing of such vehicle as provided in this chapter.

Ordinance 2014 #2 March

Comprehensive Water & Sewer Policies

This Ordinance supersedes any previous ordinances, resolutions, meeting minutes, schedules, etc.

Water and Sewer System Connection Policy - The owner of any lot(s) or parcel(s) to be developed for single family residences located within the town limits, and where the structure is within 250 feet of the water distribution line or sewer collection line operated by the Town of Stanfield, and where any property split is exempt from the definition of subdivision found in the Town's Subdivision Ordinance are required, at the property owner's expense, to connect such facility directly with the Town's water and sewer lines.

All subdivisions and all property to be developed, located within the town limits, are required at the developer's or property owner's expense, to connect the proposed development to existing utilities operated by the Town of Stanfield. There is no maximum or minimum distance for extensions to the Town's water and sewer lines. All prospective customers must request service from the Town, be approved for service by the Town, submit engineering plans as requested, pay all fees required by the town, and meet all installation requirements. Developments requesting service from the Town lines must install system to Town engineer's requirements and, upon completion, turn system, including meter, over to the Town.

If water and/or sewer lines are not located within 250 feet of residential developments not meeting the definition of "subdivision" or if water and/or sewer utilities are not reasonably available to a proposed development, the property owner may request an extension(s). The decision to extend sewer and/or water utilities is at the sole discretion of the Board of Commissioners.

In the alternative, a property owner may request that the Town participate in the extension of Town utilities. Extension may be based on pro rata shares according to the percentage of use by each participating party. The Town Board of Commissioners may request that the Town Engineer draw up plans and specifications. All extensions shall be considered as capital projects and reviewed and scheduled as a part of the Town's annual budget process, or by a budget amendment. The decision to extend sewer and/or water utilities is at the sole discretion of the Board of Commissioners.

The Town may, at its option, refuse water or sewer connection to any customer if (i) the Town does not have the capacity to provide the requested service, or (ii) the potential customer's wastewater will not meet the Town's contractual obligation to pre-treat certain wastewater discharges as required by the US Clean Water Act, or (iii) the Town Board of Commissioners does not find a request for capital improvements or allocate previously budgeted funds for the proposed improvement(s).

GENERAL CUSTOMER BILLING POLICY

Policy

- Water Bills are the responsibility of the applicant (renter or owner)
- Sewer Bills are the responsibility of the property owner; Town does not bill renters for sewer service
- All past due charges and new required fees for either or both water and sewer systems must be paid before any Business Licenses and Zoning Compliance Permits/Approvals are issued.
- The town’s administrative staff will make every reasonable effort to collect all past due accounts in accordance with applicable North Carolina laws, Town Ordinances and Resolutions.
- No refunds for any of the fees will be paid unless specific approval to do so is given by the Town Board of Commissioners.
- All new Subdivisions will be in accordance with the Zoning & Subdivision Ordinance and as approved by the Town Board of Commissioners.

Clarification of Past Charges/Fees Collected

Over the years, numerous grants and opportunities for various reasons have permitted individual property owners to prepay for either water or sewer taps and capacity fees. The following is applicable to those situations:

- **Water Taps**

Many taps are placed during construction for the convenience of the Town. Only taps that were prepaid during the construction phase are considered paid in full and this record is kept in Town Hall. These records are the determining factor regarding any prepayment. The Tap paid determination is assigned to the property, not individuals. It is the new customer's responsibility to run all lines and install any necessary equipment to ensure the new line to the tap is code compliant. An inspection must be arranged by the customer with Stanfield Public Works Department before any connection will or can be made. The prepaid tap fee or new tap fee as per schedule does not include any cost for road bores or punches. See prevailing fee schedule for this cost.

- **Sewer Taps**

Many sewer taps were prepaid and assigned to the property. The circumstances, equipment and considerations varied over the years. All prepaid sewer taps were inclusive of any capacity fees.

Grinder pump pits were provided on some properties during initial construction and pit costs were absorbed by the Town. Purchase of the Grinder Pump for the existing pit will be the responsibility of the homeowner. The homeowner also has the option to install a new pit and pump at the owner's discretion and expense. Some electrical apparatuses associated with the grinder pumps were also installed during the construction process and thus considered part of the prepaid fee also. New customers are responsible for the grinder pump purchase and installation, as well as all associated plumbing to the home/business and new line installation from the pump to the tap connection point.

- **Owner Equipment Specifications**

Owner equipment specifications will be provided to each customer after engineering review of requested tap. These specifications must be followed. Cost and installation of all required pumps, valves, pits, piping, and wiring are the total responsibility of the landowner.

- ALL New Sewer Customers – determination of the necessity of a grinder pump and the brand of pump purchased are the sole responsibility of the owner/builder/developer.
- New sewer customers are not required to, nor do they have the option to, purchase the grinder pump through the Town of Stanfield.

Owner Responsibility

- Maintain and keep in good working order all piping, valves and accessories from the meter, valve, or pump assembly.
- Prevent use which may damage system including discharge of hazardous waste, chemicals, or any solids that may stick and/or clog Town operated systems.
- Cost to repair will be paid by the owner. See schedule for costs associated with improper waste disposal.
- Pay monthly bill on time along with any back charges due to repairs made by the Town.

○ **Town Responsibility**

- Provide water and/or sewer service as may be available, provided monthly bill is paid on time.
- Provide routine maintenance and repair on Town owned utility systems.
- Town of Stanfield Public Works Personnel will not repair or replace grinder pumps for new sewer customers added after November 2, 2023. Maintenance is the sole responsibility of the future customer.
- Provide bills and collect fees.
- Town responsibility may be provided by town employees or other agreements as decided by the Town.

Damage to sewer system components - customers that willfully destroy or damage grinder pumps installed to collect and pump sewer waste into the sewer collection system will be charged for the repairs to the grinder pump and other ancillary services, e.g., commercial pump truck, when it can be clearly identified and documented that the failure was due to excessive grease, bulk items, such as rags, sand and grit or other items, that should not be flushed or poured into drains that are connected to the sewer system. The Town Administrator shall be presented the documentation and a cost breakdown to repair the pump for approval. The approved schedule shall be used when charging any customer under this section.

Order of Utility Billing Payments – Payments made to the Town and utility deposits shall be applied to utility accounts in the following order of priority: Late fees and/or penalties; miscellaneous; roll-out fee; sewer charges prior; sewer charges current; water charges prior; water charges current.

Payments of Fees and Charges; Disconnection for Noncompliance

- A. Any person using the utility system hereby contracts with the Town to comply with this ordinance and to pay all required permits, fees, and charges as required by Town laws, ordinances, policies and resolutions.
- B. Town residents and users of the Town sewer system are required to pay for their sewer service by a date specified on their utility system bill. Failure to pay a bill by its due date will result in the addition of a delinquency fee added to the amount past due on the sewer bill. The delinquency fee and the past due sewer bill amount must be paid in full to the Town for the customer's sewer account to be considered current. Failure of the customer to pay the full amount of the delinquency fee will be treated in the same manner as the sewer bill being past due for the customer's next sewer bill and grounds for the sewer service interruption by the Town, if not paid in full in the subsequent sewer bill. Any account with a balance of more than \$50 past due is subject to disconnection of service.
- C. Delinquent sewer accounts are subject to disconnection of sewer services at the customer's expense at any time, in the discretion of the Town Administrator or her designee.
- D. The Town will charge trip charge, sewer disconnection and sewer reconnection fees, as appropriate and per current fee schedule, when disconnection of service occurs.

2. The installation or replacement of a backflow prevention assembly for domestic water use shall only be performed by a licensed plumber or utility contractor. The installation or repair of a backflow prevention assembly on a dedicated fire sprinkler service shall be performed by a licensed fire sprinkler contractor or utility contractor. All backflow prevention assemblies may be tested by a certified backflow technician authorized by the Town of Stanfield. Repairs to a backflow prevention assembly on a dedicated fire sprinkler system may only be performed by a fire sprinkler contractor.
3. All new construction plans and specifications which will directly affect the Town of Stanfield water system, and/or required by the North Carolina Building Code, the North Carolina Division of Health Services (NCDEHNR), and town or county planning and zoning offices, shall be made available to the Town of Stanfield Public Works Department for review, approval, and to determine the degree of hazard.
4. All existing facilities zoned commercial or industrial that have existing water services with the Town of Stanfield and are requesting a certificate of occupancy from the county planning and zoning offices, shall be inspected for compliance of backflow and cross-connection control prevention. Any facility not having backflow protection or changing the degree of hazard shall be brought into compliance before the Public Works Department may release the facility to obtain a certificate of occupancy.

10. Reduced pressure principal assemblies must be installed in a horizontal position and in a location in which no portion of the assembly can become submerged in any substance under any circumstances (pit installations are prohibited).
11. Each backflow prevention assembly that is required must function properly at time of installment. Each customer will be required to test, maintain, and repair each assembly required which is a part of the customer's private water system. A certified backflow prevention technician may only conduct such test. Testing shall be done immediately following installation of any backflow prevention assembly and on an annual or semi-annual basis depending on the degree of hazard.
12. If repair is found necessary on an assembly, it must be re-tested following any repair. A complete duplicate copy of any testing and/or repair shall be sent to the Town of Stanfield within thirty (30) days of completion of test or repair. Each customer must maintain a complete copy of any test or repair for no less than five (5) years. All test and repair records must be maintained on forms approved by the Town of Stanfield Public Works Department.
13. All rubber components must be replaced every five (5) years or as often as needed.

Any customer making any modification to the private system's configuration or use of, which may change the degree of hazard, shall notify the Public Works Department before any modification is made. If the Public Works Department determines that such modification requires a different backflow prevention assembly, that assembly must be installed before the modification is made.
3. The following types of facilities or services have been identified by the Town of Stanfield Public Works Department as having a potential for backflow or non-potable water into the public water supply system. Therefore, an approved backflow prevention assembly will be required on all such services according to the degree of hazard present. Other types of facilities or services not listed below may also be required to install approved backflow prevention assemblies if determined necessary by the Town of Stanfield Public Works Department. Section 16 Procedure for Enforcement

1. Whenever a written petition is filed with the housing inspector by a public authority or by at least five citizens of five different households of the Town of Stanfield charging that any dwelling is unfit for human habitation or whenever it appears to the housing inspector (on his own motion) that any dwelling is unfit for human habitation, the housing inspector shall, if his preliminary investigation discloses a basis for such charges, issue and cause to be served upon the owner, and parties in interest in such dwellings, a complaint stating the charges in that respect and:
 - a. containing a notice that a hearing will be held before the housing inspector or his designated agent at a place within the county in which the property is located and;
 - b. set not less than 10 days nor more than 30 days after the serving of the complaint;
 - c. that the owner and parties in interest shall be given the right to file an answer to the complaint and to appear in person, or otherwise, and give testimony at the

- place and time fixed in the complaint; and
- d. that the rules of evidence prevailing in courts of law or equity shall not be controlling in hearings before the housing inspector.
2. If after notice and hearing, the housing inspector determines that the dwelling under consideration is unfit for human habitation; he shall state in writing his findings of fact in support of that determination and shall issue and cause to be served upon the owner thereof an order;
 - a. If the repair, alteration, or improvement of the dwelling can be made at less than 50% of the value as estimated by the inspector, the owner is required, within the time specified, to repair, alter or improve the dwelling in order to render it fit for human habitation to vacate and close the dwelling as a human habitation; or
 - b. If the repair, alteration, or improvement of the dwelling cannot be made at 50% or less of its value as estimated by the inspector, requiring the owner, within the time specified in the order, to remove or demolish such dwelling.
 - c. However, notwithstanding any other provision of law, if the dwelling is located in a historic district and the Historic District Commission determines, after a public hearing as provided by ordinance, that the dwelling is of particular significance or value toward maintaining the character of the district, and the dwelling has not been condemned as unsafe, the order may require that the dwelling be vacated and closed consistent with G.S. 160A, Part 3C.
 3. If the owner fails to comply with an order to repair, alter or improve or to vacate and close the dwelling, the housing inspector may cause the dwelling to be repaired, altered or improved or to be vacated and closed; and the housing inspector may cause to be posted on the main entrance of any dwelling so closed, a placard with the following words: "This building is unfit for human habitation; the use or occupation of this building for human habitation is prohibited and unlawful." Occupation of a building so posted shall constitute a Class 1 misdemeanor.
 4. If the owner fails to comply with an order to remove or demolish the dwelling, the housing inspector may cause such dwelling to be removed or demolished. The duties of the housing inspector set forth in subdivisions (3) and (4) shall not be exercised until the governing body shall have by ordinance ordered the housing inspector to proceed to effectuate the purpose of this ordinance with respect to the particular property or properties which the housing inspector shall have found to be unfit for human habitation and which property or properties shall be described in the ordinance. No such ordinance shall be adopted to require demolition of a dwelling until the owner has first been given a reasonable opportunity to bring it into conformity with the housing code. This ordinance shall be recorded in the office of the register of deeds in the county where the property or properties are located and shall be indexed in the name of the property owner in the grantor index.
 5. If the governing body has adopted an ordinance, or the housing inspector has:
 - a. issued an order, ordering a dwelling to be repaired or vacated and closed, as provided in subdivision (2)a, and
 - b. if the owner has vacated and closed such dwelling and kept such dwelling vacated and closed for a period of one year pursuant to the ordinance or order;
 - c. then if the governing body shall find:

- i. that the owner has abandoned the intent and purpose to repair, alter or improve the dwelling in order to render it fit for human habitation, and
 - ii. that the continuation of the dwelling in its vacated and closed status would be unfavorable to the health, safety, morals and welfare of the municipality in that:
 - 1. the dwelling would continue to deteriorate
 - 2. would create a fire and safety hazard,
 - 3. would be a threat to children and vagrants,
 - 4. would attract persons intent on criminal activities,
 - 5. would cause or contribute to blight and the deterioration of property values in the area, and
 - 6. would render unavailable property and a dwelling which might otherwise have been made available to ease the persistent shortage of decent and affordable housing in this State.
- d. then in such circumstances, the Stanfield Board of Commissioners may, after the expiration of such one-year period, enact an ordinance and serve such ordinance on the owner, setting forth the following:
 - i. If it is determined that the repair of the dwelling to render it fit for human habitation can be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling as estimated by the Inspector, the ordinance shall require that the owner either repair or demolish and remove the dwelling within 90 days; or
 - ii. If it is determined that the repair of the dwelling to render it fit for human habitation cannot be made at a cost not exceeding fifty percent (50%) of the then current value of the dwelling as estimated by the Inspector, the ordinance shall require the owner to demolish and remove the dwelling within 90 days.
- e. This ordinance shall be recorded with the Stanly County Register of Deeds and shall be indexed in the name of the property owner in the grantor index. If the owner fails to comply with this ordinance, the housing inspector shall effectuate the purpose of the ordinance.
 - i. That the amount of the cost of repairs, alterations, or improvements, or vacating and closing, or removal or demolition by the housing inspector shall be a lien against the real property upon which the cost was incurred, which lien shall be filed, have the same priority, and be collected as the lien for special assessment provided in N.C. 160A Article 10. If the dwelling is removed or demolished by the housing inspector, he shall sell the materials of the dwelling, and any personal property, fixtures or appurtenances found in or attached to the dwelling, and shall credit the proceeds of the sale against the cost of the removal or demolition and any balance remaining shall be deposited in the superior court by the housing inspector, shall be secured in a manner directed by the court, and shall be disbursed by the court to the persons found to be entitled thereto by final order or decree of the court. Nothing in this section shall be construed to impair or limit in any way the power of the

Municipality to define and declare nuisances and to cause their removal or abatement by summary proceedings, or otherwise.

- ii. If any occupant fails to comply with an order to vacate a dwelling, the housing inspector may file a civil action in the name of the Municipality to remove such occupant. The action to vacate the dwelling shall be in the nature of summary ejectment and shall be commenced by filing a complaint naming as parties-defendant any person occupying such dwelling. The clerk of superior court shall issue a summons requiring the defendant to appear before a magistrate at a certain time, date and place not to exceed 10 days from the issuance of the summons to answer the complaint. The summons and complaint shall be served as provided in G.S. 42-29. The summons shall be returned according to its tenor, and if on its return it appears to have been duly served, and if at the hearing the housing inspector produces a certified copy of an ordinance adopted by the Stanfield Board of Commissioners pursuant to subdivision (4) authorizing the officer to proceed to vacate the occupied dwelling, the magistrate shall enter judgment ordering that the premises be vacated and that all persons be removed. The judgment ordering that the dwelling be vacated shall be enforced in the same manner as the judgment for summary ejectment entered under G.S. 42-30. An appeal from any judgment entered hereunder by the magistrate may be taken as provided in G.S. 7A-228, and the execution of such judgment may be stayed as provided in G.S. 7A-227. An action to remove an occupant of a dwelling who is a tenant of the owner may not be in the nature of a summary ejectment proceeding pursuant to this paragraph unless such occupant was served with notice at least 30 days before the filing of the summary ejectment proceeding that the Stanfield Board of Commissioners ordered the housing inspector to proceed to exercise his duties under subdivisions (3) and (4) of this section to vacate and close or remove and demolish the dwelling.
- iii. That whenever a determination is made pursuant to subdivision (2) of this section that a dwelling must be vacated and closed, or removed or demolished, under the provisions of this section, notice of the order shall be given by first-class mail to any organization involved in providing or restoring dwellings for affordable housing that has filed a written request for such notices. A minimum period of 45 days from the mailing of such notice shall be given before removal or demolition by action of the housing inspector, to allow the opportunity for any organization to negotiate with the owner to make repairs, lease, or purchase the property for the purpose of providing affordable housing. The housing inspector or clerk shall certify the mailing of the notices, and the certification shall be conclusive in the absence of fraud. Only an organization that has filed a written request for such notices may raise the issue of failure to mail such notices, and the sole remedy shall be an

order requiring the housing inspector to wait 45 days before causing removal or demolition.

Section 17 Methods of Service of Complaints and Orders

Complaints or orders issued by the Inspector shall be served upon persons either personally or by registered or certified mail. When service is made by registered or certified mail, a copy of the complaint or order may also be sent by regular mail. Service shall be deemed sufficient if the certified mail is unclaimed or refused, but the regular mail is not returned by the post office within ten (10) days after mailing. If regular mail is used, a notice of the pending proceedings shall be posted in a conspicuous place on the premises affected. If the identities of any owners or the whereabouts of persons are unknown and cannot be ascertained by the Inspector in the exercise of reasonable diligence, or, if the owners are known but have refused to accept service by certified mail, the Inspector shall make an affidavit to that effect, then the serving of the complaint or order upon the owners or other persons may be made by publication in a newspaper having general circulation in Stanly County at least once no later than the time at which personal service would be required under the ordinance. Where service is made by publication, a notice of the pending proceedings shall be posted in a conspicuous place on the premises affected by the complaint or order.

Section 18 Appeals from Orders of the Inspector

An appeal from any decision or order of the Inspector may be taken by any person aggrieved thereby or by any officer, board or commission of the Municipality. Any appeal from the Inspector shall be taken within ten (10) days from the rendering of the decision or service of the order, by filing with the Inspector and with the Housing Board a notice of appeal which shall specify the grounds upon which the appeal is based. Upon the filing of any notice of appeal, the Inspector shall forthwith transmit to the Board all the papers constituting the record from which the appealed decision was made. When the appeal is from a decision of the Inspector refusing to allow the person aggrieved thereby to do any act, his decision shall remain in force until modified or reversed. When an appeal is from a decision of the Inspector requiring the person aggrieved to do any act, the appeal shall have the effect of suspending the requirement until the hearing by the Housing Board, unless the Inspector certifies to the Board, after the notice of appeal is filed with him that the reason of the facts stated in the certification, a copy of which shall be furnished to the person who is appealing, a suspension of his requirement would cause imminent peril to life or property, in which case the requirement shall not be suspended except by restraining order, for due cause shown upon not less than one (1) day written notice to the Inspector, by the Board, or by a court of record upon petition made pursuant to G.S. 160A-446(5).

The Housing Board shall fix a reasonable time for the hearing of all appeals, shall give due notice to all parties, and shall render its decision within reasonable time. Any party may appear in person, by agent, or attorney. The Board may reverse or affirm, wholly, partly, or may modify the decision or order appealed from, and may make such decision and order as in its opinion ought to be made in the matter, and to this end shall have all the powers of the Inspector. The concurring vote of four members of the Board shall be necessary to reverse or modify any decision or order of the Inspector. The Board shall have power also in passing upon appeals, in the case where there are practical difficulties or unnecessary hardships in a way of carrying out the strict letter of the ordinance, to adapt the application of the ordinance to the necessities of the case to the end that the spirit of the ordinance shall be observed, public safety and welfare secured, and substantial justice done.

Every decision of the Housing Board shall be subject to review by the proceedings in the nature of certiorari instituted within fifteen (15) days of the decision of the Board, but not otherwise.

Petition to Superior Court by Owner – Any person aggrieved by an order by the Inspector or a decision rendered by the Housing Board shall have the right, within thirty (30) working days after issuance of the order or rendering of the decision, to petition the Superior Court for an injunction restraining the Inspector from carrying out the order or decision and the court may, upon such petition, issue a temporary injunction restraining the Inspector pending a final disposition of the cause, as provided by G.S. 160A-446.

Section 19 Alternate Remedies

Neither this ordinance nor any of its provisions shall be construed to impair or limit in any way the power of the Town of Stanfield or Stanly County to define and declare nuisances and to cause this ordinance by criminal process as authorized by G.S. 14-4 and Section 12 of this ordinance, and the enforcement of any remedy provided herein shall not prevent the enforcement of any other remedy or remedies provided herein or in other ordinance or laws. Pursuant to the NC General Statute 160A-175, a civil penalty may be imposed by the Stanfield Board of Commissioners.

Section 20 Conflict with other Provisions

In the event any provision, standard, or requirement of this ordinance is found to be in conflict with any provision of any other ordinance or code of the Town the provision which established the higher standard or more stringent requirement for the promotion and protection of the health and safety of the residents of the Municipality and/or Stanly County shall prevail.
